

Garrett Park Archives Mission Statement

Garrett Park is a unique historic community that dates from its establishment in 1886 and its incorporation as a Town in 1898. The Town is on the National Register of Historic Places and portions are designated as a Montgomery County historic district.

The Garrett Park Archives is a growing collection of documents about the Town and its occupants' lives throughout its history. The archives includes hundreds of items such as Town Council records, early and recent photographs, Town cookbooks, and a variety of materials about Town and resident activities including clippings from newspapers and magazines and records from other historical collections.

The archives' purpose is to provide access to and awareness of the rich history of the Town and the Garrett Park community for all researchers. Its responsibility is to preserve the Town's rich heritage and the documents and other materials that provide a record of the Town's history and culture.
